

NASA SEWP VI

Solutions for
Enterprise-
Wide
Procurement

Contract Holder

SEWP OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

About Orus Group

Orus Group is an AI/Cloud Systems Integrator, Architecture, and Engineering firm with specialized expertise in AI Application Development. Visit our website: <https://www.OrusGroup.com>

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and we will quickly review and provide feedback.

The SEWP Contracts were awarded by scope category, the three categories are:

- **Category A - ITC/AV Solutions**
- **Category B - Enterprise-Wide ITC/AV Service Solutions**
- **Category C - Mission-Based ITC/AV Service Solutions**

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP contract is defined by the issuing Agency, not the NASA SEWP Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs - these must be issued through the issuing Agency's procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

If modifications are made to any order, these modifications must also route through the SEWP Program Management Office (PMO).

SEWP VI Ordering Guidelines

GOVERNMENT SOLUTIONS FOR ENTERPRISE-WIDE PROCUREMENT

About the Contract

The NASA SEWP (Solutions for Enterprise-Wide Procurement) GWAC (Government-Wide Acquisition Contract) provides the latest in Information Technology (IT) products and services for all Federal Agencies and their approved contractors.

The Category C scope provides Federal agencies with customized Solutions at a Mission/Program level that improve and enhance a ITC/AV infrastructure through methodologies including but not limited to custom computer programming services, telecommunication services including network operations, IT, AV, and Communications based engineering and design services, data processing and analysis services, hosting, and related services, IT and network operation and computer facilities, ITC and AV management services, IT consulting and educational services, digital government services, and cybersecurity and security systems services. Services may be performed at Government and/or Contractor locations worldwide, as specified in each Order. Category C has a threshold restriction of \$2 million per order (inclusive of options) for the 1st year of contract performance and \$10 million per order in the 2nd year of contract performance. Category C threshold restrictions are subject to removal beginning in the 3rd year of contract performance.

Premier NASA SEWP VI Solutions Provider

As a Prime Contract holder for Group C under the SEWP V contract, Orus Group can fulfill orders for IT services including but not limited to the following:

INNOVATION SERVICES	CYBERSECURITY SERVICES
DATA ANALYTICS SERVICES	CLOUD SERVICES
APPLICATION SERVICES/SOFTWARE	IT OPERATIONS AND MAINTENANCE /
DEVELOPMENT	HELP DESK/CALL CENTER SUPPORT
DATABASE SERVICES	PROG. MGMT. & ANCILLARY SERVICES
TRAINING	NETWORK SERVICES

Place Orders Online via SEWP QRT

To obtain a quote from Orus Group for services on SEWP VI, the request must be issued via the Quote Request Tool. The contract holder must respond via the Contract Holder Only page with a quote in an image file, MS Word, or Excel document or mutually agreed upon format. The quote must be accompanied with a verification file listing all CLINs quantities and prices matching exactly what was in the quote.

About Orus Group

Corporate Overview

The Orus Group is a Maryland based SBA certified 8A small business. We also are a prime contractor on the NASA SEWP VI contract vehicle. The Orus Group prides itself in establishing strong relationships with our clients. We act as trusted advisors to work together with our clients to guide the successful delivery of complex mission critical solutions for both government and the private sector. Our focus on understanding client challenges and building trust enables the development of tailored solutions to reduce operational complexity, increase efficiency, and reduce costs.

Core Competencies

- ◆ Cloud Systems Integration
- ◆ Application Modernization—Application Development
- ◆ System Architecture / System Engineering / System Integration
- ◆ LLM Training and AI Solutions Integration
- ◆ Cybersecurity Services—SOC—VSOC
- ◆ Vendor and Stakeholder Engagement
- ◆ Market Research—Analysis of Alternatives
- ◆ Program Management Support

Differentiators

Experience supporting large programs including Program Management offices for \$100M plus initiatives
Experience supporting modernization initiatives for federal agencies including US Census DICE and CEDCaP Programs
Experience in developing AI solutions to provide analytics and advanced Machine Learning capabilities for client data
Expertise in developing high performance Cloud Infrastructure and Monitoring Solutions
Experience conducting market research and Analysis of Alternatives for large scale procurements

C4 Agentic Framework™

AGENTIC C4™

Powered by the C4 Agentic Framework™

C4 is Configuration. Control. Compliance. Cybersecurity.

The C4 Agentic Framework™ provides the intelligence and automation layer that continuously **discovers, analyzes, reasons about, monitors, prioritizes, and—when authorized—acts upon conditions across the enterprise cloud environment.**

AGENTIC C4™ is Orus Group's AI-powered cloud governance, security, compliance, automation, and monitoring suite designed to help organizations move beyond simply observing their cloud environments toward continuously understanding, governing, and acting upon them.

Our solution enables clients to Know what exists. Understand how it is configured. Know who controls it. Determine whether it complies. Understand whether it is secure. Know what it costs. Identify what changed. Understand the impact. Recommend the response. Automate appropriate action.
